Part 1

Foreword	v
<i>Luis Bragança, Manuel Pinheiro, Said Jalali, Ricardo Mateus, Rogério Amoêda and Manuel Correia Guedes</i>	
Welcome	vii
Chapter 1. Actions and Policies to Implement Sustainable Construction	
Energy Ratings Based on Measured Energy Consumption: A Practical Approach for Implementation of EPBD and Identification of High-Energy Use Buildings	3
<i>P. Hernandez, P. Kenny and R. Cohen</i>	
Achieving Sustainable Infrastructure in Washington DC	11
<i>M. Cederoth</i>	
Sustainability Recommendations for a Social Housing Project: Barreiros, Vitória (BR)	19
<i>M. Bissoli, J.L. Calmon and K. Caser</i>	
Sustainable Housing: From Consensual Guidelines to Broader Challenges	27
<i>J. Mourão and J. Branco Pedro</i>	
The Impacts of Residential Buildings – How to Identify Life Cycle Based Improvement Potentials	35
<i>B. Wittstock, C. Makishi, A. Braune, J. Kreißig, N. Gallon and C. Wetzel</i>	
The Contribution of the National Laboratory of Civil Engineering (LNEC) to a Sustainable Built Environment	40
<i>C. Pina Santos, J. Branco Pedro and J. Vasconcelos Paiva</i>	
Energy Efficiency of Old and New Buildings in Romania	48
<i>D. Dan, V. Stoian, T. Nagy-Gyorgy and C. Dăescu</i>	
Construction Sites Environment Management: Establishing Measures to Mitigate the Noise and Waste Impact	56
<i>J.P. Couto and A.M. Couto</i>	
How to Attract Consumers and Real Estate Agents to Sustainable Housing	63
<i>A. van Hal</i>	
Promoting the Environmental Management Systems into Construction Industry: The First Step	68
<i>J. Selih</i>	

Reasons to Consider the Deconstruction Process as an Important Practice to Sustainable Construction <i>J.P. Couto and A.M. Couto</i>	76
Methodology for the Application of Sustainable Construction <i>L.N. Jesus, M.G. Almeida and A.C. Almeida</i>	82
The Calculation Model of the New Portuguese Thermal Regulation – Put Side by Side with Dynamic Simulation <i>P. Silva, L. Bragança and M. Almeida</i>	90
Local Actions to Improve the Sustainable Construction in Italy <i>C. Clemente</i>	98
Alternative Network Geometry of Essential Networks for Enduring Sustainable Development <i>A. van Timmeren, J. Kristinsson and L.C. Röling</i>	105
The Certification of Buildings as an Enterprise Strategy of the Real Estate Sector: A National Scope Analysis <i>E. Cepinha, P. Ferrão and S. Santos</i>	113
The Sustainability in Rehabilitation and in its Education <i>J.S. Eliziário, A.R. Pereira Roders and I. Valverde</i>	121
Chapter 2. Sustainable Management of Existing Building Stock	
A Framework to Sustainable Renewal of Existing Building Stock in Brazil <i>M.A.S. González and A.P. Kern</i>	131
Sustainability and Natural Resources Uses at a South Brazilian University: Proposing an Environmental Plan to University of Passo Fundo <i>M.A. Leite Frandoso, E. Grala da Cunha, L. Brandli, F. de Brito Rodrigues, J.A. Rostirolla, L. Turella, L. de Negri and T. Marchiori</i>	139
The Service Integrated Envelope Applied for Sustainable Office Refurbishment <i>T. Ebbert and U. Knaack</i>	147
Characterization of the Lisbon Elementary Public School Building Stock <i>S. Raposo, M. Fonseca and J. de Brito</i>	155
Overcoming the Barriers to Improving the Sustainability of Existing Commercial Office Buildings <i>J.B. Storey</i>	163
Sustainable Management of Existing Building Stock: A Strategy to Reduce the Energy Consumption and the Environmental Impact <i>É. Mata, F. López and A. Cuchi</i>	171
Housing and Information Society: Integration of ICT in the Existing Housing Stock <i>S. Eloy, I. Plácido and J.P. Duarte</i>	178

Thermal Rehabilitation of a Student’s Hostel Belonging to the “Politehnica” University of Timișoara <i>D. Dan, V. Stoian, T. Nagy-Gyorgy and C. Dăescu</i>	186
Existence and Progress of Deterioration of Concrete Facades <i>J. Lahdensivu, I. Weijo and U. Marttila</i>	194
Environmental Assessment of the Maintenance of Façade Openings in Dwellings – The Dutch Case <i>I.S. Blom and L.C.M. Itard</i>	202
How Sustainable Rehabilitation Designers Really Are <i>A.R. Pereira Roders, J. Post and P.A. Erkelens</i>	210
Sustainable Management of Building Stock Refurbishment by Using MCDM <i>J. Šelih</i>	218
Renewal of a Big High Density Housing Block in Berlin Kreuzberg <i>S. Giussani</i>	226
Sustainable Management of Buildings <i>T. Häkkinen, E. Vesikari and S. Pulakka</i>	233
Effect of Balcony Glazing on the Durability of Concrete Structures in Nordic Climate <i>J.S. Mattila</i>	241
Technical Solutions for Sustainability in Post-War Residential Areas <i>S. Vidén</i>	249
Sustainable Technologies in the Refurbishment of Existing Building Envelopes in Italy <i>S. Brunoro</i>	257
Sustainable Recovery Approach to the Existing Housing Stock in Italy <i>P. Civiero</i>	265
Living Building Concept: New Approach to Value Delivery in the Built Environment <i>R. Vrijhoef and H. de Ridder</i>	273
Measuring the Effect of Design Changes by a Neuro-Fuzzy System <i>S. Durmisevic, S. Sariyildiz and Ö. Ciftcioglu</i>	281
Chapter 3. Building Sustainability Assessment Tools	
Early Design Stage Evaluation Tool for Sustainable Energy Systems in Large New Buildings <i>K. Shanks</i>	291
The Use of EPDs in Building Assessment – Towards the Complete Picture <i>A. Braune, J. Kreißig and K. Sedlbauer</i>	299
Some Observation About the Efficiency of Building Sustainability Assessment Tools <i>C. Monterotti and A. Cuchi</i>	305

Vitória's Healthcare Buildings Environmental Performance Based on LEED/NC 2.2 <i>L.S. Araujo and J.L. Calmon</i>	310
Assisting the Commissioning of the Low-Energy Buildings Design: From a Methodology to a Dynamic Tool <i>N. Hammachi-Belkadi, M. Jandon, F. Guéna and Y. Diab</i>	318
Selecting Aspects and Indicators in Environmental Assessment Methods for Buildings <i>T. Malmqvist and M. Glaumann</i>	326
Life Cycle Assessment Tool for Building Assemblies <i>J. Carmody, W. Trusty, J. Meil and M. Lucuik</i>	334
Performance Assessment for Sustainable Construction: Lest We Forget About the Client <i>W. Gyadu-Asiedu, F.J. Scheublin and E.L.C. van Egmond</i>	341
Urban Bioclimatic Indicators for Urban Planers with the Software Tool <i>SOLENE</i> <i>F. Miguet and D. Groleau</i>	348
Perspectives of Building Sustainability Assessment <i>L. Bragança, R. Mateus and H. Koukkari</i>	356
Life Cycle Assessment of Construction Processes <i>J. Šelih and A.C.M. Sousa</i>	366
Optimization of Variable Selection for Sustainable Construction <i>S. Pushkar, A. Katz and R. Becker</i>	373
Sustainability Assessment of Building Refurbishing Operations <i>L. Bragança and R. Mateus</i>	381
The Portuguese LiderA System – From Assessment to Sustainable Management? <i>M.D. Pinheiro</i>	389
Life Cycle Assessment of Steel and Reinforced Concrete Structures: A New Analysis Tool <i>A. Peyroteo, M. Silva and S. Jalali</i>	397
Constant or Variable Indoor Environments? Sustainable Option of Adaptive Thermal Comfort <i>L. Matias, C. Santos, M. Rebelo, D. Silva and M. Correia Guedes</i>	403
Developing a Method to Characterize Indoor Environmental Parameters in Naturally Ventilated Classrooms <i>N. Mahyuddin and H.B. Awbi</i>	411
Towards an Integrated Decision Process of Sustainable Urban Projects <i>L. Adolphe and B. Rousval</i>	418
Application of the EcoBlock method to Eco-Design – Electric Hand Dryers Versus Paper Towels <i>J. Joanaz de Melo, L. Macedo and A. Galvão</i>	426

Life Cycle Costing as Part of Decision Making – Use of Building Information Models <i>G. Kringsvoll</i>	433
A Fuzzy-Neural Tree Knowledge Model for the Assessment of Building's Transformation <i>S. Durmisevic and Ö. Ciftcioglu</i>	441
Chapter 4. Design for Sustainability	
Splitting and Managing the Solar Spectrum for Energy Efficiency and Daylighting <i>A.V. Pelegrini, D. Harrison and J. Shackleton</i>	451
A Sustainable Technical System for Ventilated Façades <i>J. Avellaneda, J.M. Gonzalez, A. Carbonnel and D. López</i>	459
Architectural Beam of Light Use of Daylight Pipes in Climates of High Latitude <i>A. Perez, R. Serra and A. Isalgué</i>	466
Examination of Solar Control of Existing Building Stock in Izmir and Suggestions for a Sustainable Future <i>M. Altin</i>	475
Energy Consumption of RC Buildings During Their Life Cycle <i>Ö. Bozdağ and M. Seçer</i>	480
Poly-Optimal Method of Designing Environmentally Friendly Buildings <i>R.R. Gajewski, A. Węglarz and K.H. Żmijewski</i>	488
Natural Lighting in Office Buildings – Energy Saving Potential in Electrical Lighting <i>A.D. Coelho</i>	494
Gypsum Plasters for Energy Conservation <i>N. Silva, J. Aguiar, L. Bragança, T. Freire and I. Cardoso</i>	502
Implementing the Low Energy Concept into Current Irish Housing Building Delivery Processes – Issues and Barriers <i>I. Kondratenko, V. Brophy and P. Hernandez</i>	508
Service Life Prediction for Buildings' Design to Plan a Sustainable Building Maintenance <i>B. Daniotti and S. Lupica Spagnolo</i>	515
Durability Design of Metal Structures Based on Lifetime Safety Factor Method <i>L. Cascini, F. Portioli and R. Landolfo</i>	522
The Redesign for Residual Service Life of Existing Structures <i>A. Kudzys, P. Bulota and O. Lukoseviciene</i>	530
The Flexible and Upgradeable Façade Concept for Refurbishment <i>T. Ebbert and U. Knaack</i>	538
Performance Based Design Using Life Cycle Cost Analysis <i>M. Seçer and Ö. Bozdağ</i>	546

Hygrothermal Profiles of Building Elements in the Context of Service Life Design <i>C. Giarma, D. Bikas and D. Aravantinos</i>	553
Comparison of Two Structural Reuse Options of Two-by-Four Salvaged Lumbers <i>S. Nakajima and T. Murakami</i>	561
Building Deconstruction and Building Heritage Preservation: A Case Study at Porto's World Heritage Historical Centre <i>R. Amoêda and C. Pinheiro</i>	569
Organisation of Reverse Logistics Tasks in the Construction Industry <i>F. Schultmann and N. Sunke</i>	577
Overview of Deconstruction Activities in Portugal <i>A. Santos and J. de Brito</i>	585
Salvageability of Building Materials <i>A.S. Nordby, B. Berge and A.G. Hestnes</i>	593
Reusability of Massive Wood Components <i>A.S. Nordby, B. Berge and A.G. Hestnes</i>	600
Motives for Design for Disassembly in Building Construction <i>C. Thormark</i>	607
Bionic Breathing Skin for Buildings <i>L. Badarnah and U. Knaack</i>	612
An Ecosystem Based Biomimetic Theory for a Regenerative Built Environment <i>M. Pedersen Zari and J.B. Storey</i>	620
Practices and Sustainable Principles on the Rural Constructions in Molise Region (Italy) <i>G. Ausiello and D. Fornaro</i>	628
Author Index	I

Part 2

Foreword <i>Luis Bragança, Manuel Pinheiro, Said Jalali, Ricardo Mateus, Rogério Amoêda and Manuel Correia Guedes</i>	v
Welcome	vii
Chapter 5. Designing the Sustainable City of Tomorrow and Urban Sustainability	
Environmental Performance and Management of Sustainable Urban Projects <i>E.D. Dufresnes, E.W. Wurtz, G.A. Achard and C.B. Buhe</i>	637

Assessment on Urban Ecosystems <i>J. Mourão and A. Cuchi</i>	643
The Compact City: An Urban Path Towards Sustainability in Arid Areas <i>K. Hamel and S. Mazouz</i>	650
One Planet Living Pioneer Project <i>P. Reis Silva</i>	658
Reflecting About the Emergence of Sustainable Urban Communities – A Social Ecological Point of View <i>J. Craveiro, P. Machado, D. Silva and Á. Pereira</i>	665
Sustainable Tourism Indicators for the Coastal Places. State of Research <i>M.N. Suárez Sánchez</i>	670
Sustainability and Human Comfort at Urban Level: Evaluation and Design Guidelines <i>F. Ali-Toudert</i>	678
reCHARGEDcity ²¹⁺ – From a Perforated, Shrinking City to a Energy-Self-Sufficient Town <i>F. Lüter and T. Meinberg</i>	686
Methods in Sustainable Urban Process <i>M.P. Amado, A.J. Pinto, C.V. Santos and A. Cruz</i>	694
Towards Urban Sustainability: Trends and Challenges of Building Environmental Assessment Methods <i>F. Ali-Toudert</i>	702
Green Cities of Tomorrow? <i>E. Alexandri</i>	710
Comprehensive Water and Nutrient Planning for Sustainable Design <i>J.H. Todd, D. Benjamin and J. Todd</i>	718
Noise Abatement from the Point of View Sustainable Environment <i>O. Yilmaz Karaman</i>	726
Regenerating Lost Places in Old Cities (Link Linguistic with Sustainability) <i>S. Shadravan</i>	734
The Urban Planning Tools as Quality Control Device for Sustainable Projects <i>E. Arbizzani, C. Clemente, P. Civiero, M. Nocera and P. Piermattei</i>	741
Urban Rehabilitation with Sustainable Principles: The Case Study of Montefalcione, South Italy <i>D. Francese and C.F. Ambrosino</i>	749
Chapter 6. Sustainable Resources, Eco-Materials and Technologies	
Energy and Resources, Material Choice and Recycling Potential in Low Energy Buildings <i>C. Thormark</i>	759

Construction and Demolition Waste Management in Portugal <i>A.D. Coelho and J. de Brito</i>	767
Lime-Metakaolin Mortars – Properties and Applications <i>A. Velosa and R. Veiga</i>	775
Characterisation of External Renderings of Rammed Earth Construction in Algarve <i>L. Mateus, J. de Brito and M.R. Veiga</i>	781
Environmental Life Cycle Assessment of Concrete Made with Fine Recycled Concrete Aggregates <i>L. Evangelista and J. de Brito</i>	789
Recycled Aggregate Production: Remark and Assessment of the Economical Advantage of a Case Study <i>V. Basilico and M. Quattrone</i>	795
Be Aware: Built Environment Action on Waste Awareness and Resource Efficiency <i>G. Hobbs and A. Conroy</i>	803
The Need and Means for Sustainable Use of Wood in the Tanzanian Construction Industry <i>T.S. Mufuruki, E.L.C. van Egmond and F.J.M. Scheublin</i>	810
An Experimental Study on Properties of Mortar Mixing Activated Hwangtoh Considering Pozzolanic Reaction <i>H.-C. Lee, G. Lee, S.-W. Hong, D.-O. Yang and S.-S. Go</i>	818
A Study on the Physical Properties of Hard Concrete Mixing Various Type of Recycled Aggregate <i>S.-S. Go, D.-R. Yoo, H.-C. Lee, G. Lee and Y.-C. Park</i>	826
Sustainable Steel Buildings Through Natural Fire Safety Concept <i>M. Braun</i>	834
Sustainable Concrete Production <i>J. Šelih and R. Žarnić</i>	842
General Issues of Construction Materials Recycling in the USA <i>A.R. Chini</i>	848
Eco-Concrete: Preliminary Studies for Concretes Based on Hydraulic Lime <i>A. Velosa and P. Cachim</i>	856
Structural Aluminium Alloys and Sustainability in Building Applications <i>E. Efthymiou</i>	861
Eco-Efficiency and Sustainability of Traditional Turkish Houses <i>M. Tanac Kýray</i>	868

Dynamical and Thermal Modelling of PDEC: Using Traditional Chimney and New Dwelling as Case Studies in Portugal <i>C. Melo</i>	872
Eco-Efficient Mortars with Enhanced Mechanical, Durability and Bactericidal Performance <i>R. Eires, A. Camões and S. Jalali</i>	880
Structural Concrete with Incorporation of Coarse Recycled Concrete and Ceramic Aggregates <i>M. Gomes and J. de Brito</i>	887
An Energy Efficient Solution to Mitigate Heat Islands and Reduce Cooling Energy Loads <i>A. Synnefa, A. Dandou, M. Santamouris, M. Tombrou and N. Soulakellis</i>	895
Chapter 7. Use of Industrial Waste	
Composite Panels Reinforced with Waste Fibrous Materials <i>M.G. Gomes, R. Fangueiro and C. Gonilho Pereira</i>	905
Using Mine Waste Mud to Produce Environmentally Friendly New Binders <i>F.P. Torgal, J.P. de Castro Gomes and S. Jalali</i>	912
Use of Cellulose Sludge in the Production of Fibrocement Building Materials <i>R. Modolo, J.A. Labrincha, V.M. Ferreira and L.M. Machado</i>	918
Application of Crushed Glass Residues in Mortars <i>A. Fragata, H. Paiva, A.L. Velosa, M.R. Veiga and V.M. Ferreira</i>	923
Optimization of Pozzolanic Reaction of Ground Waste Glass Incorporated in Cement Mortars <i>L.A. Pereira de Oliveira, J.P. Castro Gomes and P. Santos</i>	928
Chemical Characterization and Leaching of Treated Fly Ash from a MSWI Plant <i>I.M. Martins, A.M. Esteves and J.P. Forth</i>	935
Eco-Friendly Construction Materials Using Gypsum and Industrial Wastes <i>R. Eires, A. Camões and S. Jalali</i>	943
Concrete Produced Using Crushed Bricks as Aggregate <i>P.B. Cachim</i>	950
Chapter 8. Innovative Sustainable Construction Systems	
Glocal Structural System in a Seismic Desert City <i>S. Shahnoori and A.I.M. Voorbij</i>	959
Coolhouse: Integrating Very Low Energy Geothermal Cooling with Sustainable Construction <i>J. Mainwaring</i>	967
The Environmental Benefits of the off-Site Manufacturing <i>S. Russo Ermolli</i>	974

Jee – Janela Eco-Eficiente (Eco Efficient Window); Development of a High Performance Standard Window <i>M. Veríssimo, M.G. de Almeida and L. Bragança</i>	982
A Research on the Integrated System for Efficient Management of Construction Site <i>H.-M. Lee, D.-H. Kim, J.-H. Hong, H. Song and S.-S. Go</i>	990
Recycling Prefabricated Concrete Components – A Contribution to Sustainable Construction <i>C. Asam</i>	998
Guidelines for a Good Practices Manual on Sustainable Construction <i>I. Santos, L. Soares and J. Teixeira</i>	1006
Sustainability in Lightweight Modular Construction for Housing <i>G. Wadel, J. Avellaneda and A. Cuchi</i>	1013
Chapter 9. Case Studies	
East London Line Sustainability Initiatives <i>L.B. Carse</i>	1023
The First Cooperative Building of Sustainable Housing in Portugal <i>J.P.T. Coimbra</i>	1031
Directing Sustainable Investments in Commercial Real Estate <i>A.G. Entrop and H.J.H. Brouwers</i>	1035
Life Cycle Assessment of a Tourism Resort with Renewable Materials and Traditional Construction Techniques <i>H. König, E. Schmidberger and L. de Cristofaro</i>	1043
A Sustainable Planning Design Tool for the Environmental Compatibility of the Tourist Coastal Territory <i>A. Serafino</i>	1051
Building Deconstruction in Portugal: A Case Study <i>A. Santos and J. de Brito</i>	1059
Impacts in the Internal Environment Quality of a Music School from the Urban Design of a University Campus <i>I.S. Castro, M.C.G. Silva, P.A. Rheingantz, L.E. Bastos and E. Diniz</i>	1067
Reducing CO ₂ . Are Industrialised Construction Systems Better? <i>A. Pagès, O. Paris and A. Cuchi</i>	1075
Integration of Sustainability Solutions in Sanitary Installations: The Example of the AveiroDOMUS “House of the Future” <i>R. Castro and A. Silva-Afonso</i>	1083
Certifying a Sustainable Reconstruction of Vernacular Architecture in Peneda-Gerês National Park <i>M.I. Cabral</i>	1088

Sustainable Building Structures for Housing <i>D. Dubina, V. Ungureanu and M. Mutiu</i>	1096
Sustainability of Constructions. Van Abbemuseum, Eindhoven <i>Y.K. Aktuglu</i>	1104
Sustainability of Constructions. Suleyman’s Mosque, Istanbul <i>Y.K. Aktuglu, M. Altin, M. Tanac Kiray, O. Yilmaz Karaman, M. Secer, O. Bozdag and I. Kahraman</i>	1110
Case Study: LEED™ by Design in the School of the Future <i>J. Kliwinski</i>	1118
Influence of End-of-Life Scenarios on the Environmental Performance of a Low-Rise Residential Dwelling <i>H. Gervásio and L. Simões da Silva</i>	1126
The SHE Project: Sustainable Housing in Europe. Social Housing Coops’ Best Practices for Sustainable Communities <i>A. Lusardi and A. Braccioni</i>	1134
Natural Illumination Availability in Ponte Da Pedra Apartment Block – A Case Study <i>C. Cardoso, M. Almeida and L. Bragança</i>	1142
Author Index	1151
