

Correction to “Multilayered Hierarchical Capsules Providing Cell Adhesion Sites”

Clara R. Correia, Rui L. Reis, and João F. Mano*

2013, 14 (3), 743–751. DOI: 10.1021/bm301833z

Figure 1 is erroneously repeated in Figure 4. The correct Figure 4 is given below. Although the caption of Figure 4 is correct, it is repeated in this erratum for a better interpretation. The remainder of the paper is not altered by this correction.

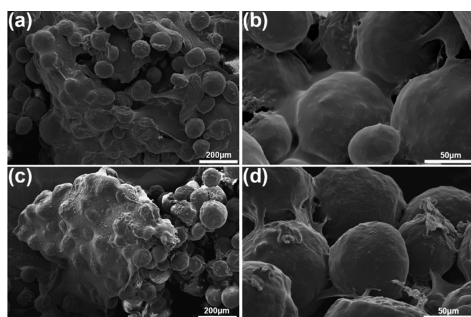

Figure 4. Scanning electron microscopy of encapsulated PLLA microparticles and cells at (a) day 1 and (c) day 7 of culture. Scale bar represents 200 μm with 200 \times of magnification. (b) and (d) represent higher magnification images of days 1 and 7, respectively. Scale bar is 50 μm with 500 \times of magnification.
