Corrigendum

Corrigendum to “Cre-*loxP*-based system for removal and reuse of selection markers in *Ashbya gossypii* targeted engineering” [Fungal Genet. Biol. 68 (2014) 1–8]

Tatiana Q. Aguiar¹, Cláudia Dinis¹, Lucília Domingues*

CEB – Centre of Biological Engineering, University of Minho, 4710-057 Braga, Portugal

The authors regret, but the last sentence of the abstract should be read as: “In spite of its wide use in other organisms, including other Ascomycete fungi, this is the first report describing Cre-*loxP*-based methodology for *A. gossypii*, opening new perspectives for targeted engineering of this fungus with several promising biotechnological applications.”

The authors would like to apologise for any inconvenience caused.
