

Proceedings of the Final Conference in Innsbruck

Sustainability of Constructions

Towards a better built environment

Life cycle analysis of a steel framed building in Romania <i>Viorel Ungureanu, Adrian Ciutina and Dan Dubina</i>	341
Environmental Product Declaration for structural steel as basis for sustainability assessment of constructions <i>Bernhard Hauke, Oliver Hechler, Georges Axmann and Diana Fischer</i>	351
Life Cycle Assessment of Composite Bridges <i>Anne-Laure Hettinger, Jean-Sebastien Thomas, Oliver Hechler and Yves Conan</i>	361
Sustainable Steel-Composite Bridges <i>Ulrike Kuhlmann and Philippa Maier</i>	373
Life cycle assessment for railway bridge infrastructure: a case study of Bollstaån Bridge <i>Guangli Du</i>	381
Adaptation to Climate Change in Finnish Concrete Buildings - Preliminary Study <i>Jukka Lahdensivu and Hanna Tietäväinen</i>	387
Climate change effects on the robustness of building stock <i>Dan Dubina and Florea Dinu</i>	395
Environmental expenditures of households <i>M. Broniewicz and Y. K. Aktuglu</i>	401
Effects of wall's masonry-density on decrement factor & time lag <i>Karolos J. Kontoleon, Dimitrios K. Bikas and Christina St. Giarma</i>	409
Examination of Shading-Photovoltaic Building Components from the Viewpoint of Sustainability <i>Mujde Altin</i>	417
Façade Modules for Eco-Efficient Refurbishment of Buildings: Glazing Thermal Performance to Guimarães Climate <i>Helenice M. Sacht, Luís Bragança and Manuela Almeida</i>	423
Energy Efficient Design Support Systems: a case-based probabilistic approach <i>Alberto Giretti, Roberta Ansuini, Massimo Lemma and Roberto Larghetti</i>	431
The Requirements and Testing of Frost Durability of ETICS <i>Toni Pakkala, Jommi Suonketo and Jukka Lahdensivu</i>	439
Converting a conventional residential building into a sustainable one <i>Niki Asimi, Artemis Safouri and Georgia Safouri</i>	447
From the Traditional Architecture, throughout the Formula, to the Design Guidelines: the Wind Tower Tradition <i>Cristina Benedetti, Giuliana Leone, Marco Baratieri and Ilaria Brauer</i>	455
Evaluation of the impact of some Portuguese thermal regulation parameters on the buildings energy performance <i>Catarina Araújo, Manuela Almeida and Luís Bragança</i>	463
